7. School life in Japan

《Japanese culture, customs and rules》

Here in Japan, students find a lot of cultural difference from home countries. When students are in Japan, they need to follow as Japanese do.

《Part time job》

- We accept students, we do not accept someone who come to Japan for work.
- Students can work up to 28 hours (40 hours in long holiday) a week, if students admitted to work by Immigration Bureau.
- Students must follow the rule of the company working for.
- If students wish, school can offer the part time job for the only first time. In that case, students cannot choose the job. Thereafter, you have to find job by yourself. We post some job information.

《Example of the wages》

1,072 JPY × 28 hours × 4 weeks = 120,064 JPY (approximately)

The wage was calculated based on minimum wage in Tokyo as of 1st January in 2023

《Expenses Planning》

It costs you 20,000JPY-50,000JPY for electricity, gas, meal, etc. monthly. There are individual differences. It is difficult to afford all the cost for tuition fee, room and board, etc. by only part time job. It will also cost students large amount of expenses, 600,000JPY to 1,200,000JPY, to enter a higher-level school after graduation. Therefore, it is recommended to budget financial plan to afford it beforehand.

《Student Insurance》

All students get student insurance, the insurance premium is included in other expenses which students pay at entrance. This insurance does not cover neither the incident nor the accident.

《Temporary returning home country》

Tokyo International Language Academy will not approve that student return home country except for the wedding of relatives or funeral.
